## DETAILED ACTION

### *Inventorship*

1. In view of the papers filed June 14, 2004, the inventorship in this nonprovisional application has been changed by the deletion of Debra G. Gilbertson.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

### *Conclusion*

This application is in condition for allowance except for the following formal matters:

2. It is noted that the instant specification remains not in compliance with sequence rules for those reasons of record in section 2 of Paper mailed on April 14, 2004. Briefly, Sequence listing submitted on June 06, 2001 identifies 53 sequences in the instant application, while the printout of the CRF entered on August 06, 2003 lists 57 sequences. Therefore, it appears that the content of the sequence listing paper copy is not identical to the content of the computer readable form. Clarification is required.

3. Claims 32-38, 42 and 56-60 are allowed.

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
